

Amy Mummert

Junior Software Engineer

Experience

Planned Career Break

2016-2024

An intentional pause to focus on full-time caregiving, household management, and continuing education.

- Started a freelance photography business, Pebble Bridge Photo & Design.
- Performed tasks for Amazon Mechanical Turk and Upwork capturing images for human intelligence recognition.
- Returned to higher education to obtain my bachelors degree in computer science.

Washington County Sheriff's Office

Deputy Sheriff

2009-2016

After graduating from Oregon State Police Academy in 2009, I was a first responder to the various needs of the citizens of Washington County. Enforcing traffic and criminal law and responding to calls involving crime and civil needs. I performed investigations, rendered aid, and made arrests as necessary. I earned a Life Saving award for saving the life of a citizen in a mental health crisis.

Projects

RealTrader - Python

Facilitates backtesting of financial instrument trading strategies and allows the use of the same in live trading.

Personal Portfolio - React / NextJS / Typescript / TailwindCSS

A showcase of Software Engineering Projects

<https://www.amymummert.com>

Blog Project - React / NextJS / Typescript / Sanity CMS

A blog project that uses Sanity CMS

<https://github.com/ARMummert/Blog-Project>

Arcane Archive - A Magic The Gathering Card Archive

Arcane Archive is a Magic: The Gathering companion app that helps players manage their games with a mana counter & life counter. It also features a database for storing and organizing cards and sets, making it easy to track your collection.

Objective

To obtain a software engineering position where my creativity, problem-solving skills, education and experience can be used to develop innovative solutions and drive business objectives.
